CLAIMS

What is claimed is:

- 1. A liquid composition comprising:
 - a medicament;
 - a flavorant; and,

water;

wherein said composition is essentially free of sugars and is adapted for use by a companion animal.

- 2. The liquid composition in accordance with claim 1 comprising at least about 50% water, by weight of said composition.
- 3. The liquid composition in accordance with claim 1 comprising at least about 80% water, by weight of said composition.
- 4. The liquid composition in accordance with claim 1 comprising from about 0.00001% to about 99% of said medicament, by weight of said composition.
- 5. The liquid composition in accordance with claim 4 having a pH of from about 3 to about 7.
- 6. The liquid composition in accordance with claim 4 wherein the medicament is selected from the group consisting of: imidacloprid, nitenpyram, lufenuron, fipronil, milbemycin oxime, and combinations thereof.
- 7. The liquid composition in accordance with claim 4 wherein the medicament is selected from the group consisting of: moxidectin, ivermectin, pyrantel, milbemycin oxime, lufenuron, selamectin, and combinations thereof.
- 8. The liquid composition in accordance with claim 4 wherein said medicament is an antibody.
- 9. A method of treating a condition in a companion animal comprising orally administering the composition in accordance with Claim 1 to said animal.
- 10. The method in accordance with claim 9 wherein the condition is selected from the group consisting of flea conditions, tick conditions, heartworm conditions, bacterial conditions, viral conditions, and combinations thereof.
- 11. The method of treating a condition in accordance with claim 9 wherein said liquid composition is administered daily.

- 12. The method of treating a condition in accordance with claim 9 wherein said liquid composition is administered weekly.
- 13. The method of treating a condition in accordance with claim 9 wherein said liquid supplement composition is administered monthly.
- 14. The method of treating a condition in accordance with claim 9 wherein said liquid composition is administered with a pet food.
- 15. A kit comprising:

a container; and,

a composition housed in said container, wherein said composition comprises of a medicament, a flavorant, and water, wherein said composition is essentially free of sugars and is adapted for use by a companion animal.

- 16. A kit in accordance with claim 15 comprising a plurality of containers.
- 17. A kit comprising:

a compartmentalized container; and,

two or more compositions housed in said container, wherein said composition comprises of a medicament, a flavorant, and water, wherein said two or more compositions are essentially free of sugars and are adapted for use by a companion animal.

- A kit in accordance with claim 17 comprising a plurality of compartmentalized containers.
- 19. A kit comprising:
 - a compartmentalized container;
 - a first composition comprising a medicament, wherein said first composition is housed in a first compartment of said container; and,

one or more compositions housed in a compartment of said container which is not said first compartment, wherein said compositions comprise of a flavorant, and water, wherein the compositions are essentially free of sugars and adapted for use by a companion animal.

- 20. A liquid composition, comprising:
 - a medicament;
 - a flavorant; and,

water;

wherein said composition is essentially free of tomato flavor and is adapted for use by a companion animal.

- 21. The liquid composition in accordance with claim 20 comprising at least about 50% water, by weight of said composition.
- 22. The liquid composition in accordance with claim 20 comprising at least about 80% water, by weight of said composition.
- 23. The liquid composition in accordance with claim 20 comprising from about 0.00001% to about 99% of said medicament, by weight of said composition.
- 24. The liquid composition in accordance with claim 23 having a pH of from about 3 to about 7.
- 25. The liquid composition in accordance with claim 23 wherein the medicament is selected from the group consisting of: imidacloprid, nitenpyram, lufenuron, fipronil, milbemycin oxime, and combinations thereof.
- 26. The liquid composition in accordance with claim 23 wherein the medicament is selected from the group consisting of: moxidectin, ivermectin, pyrantel, milbemycin oxime, lufenuron, selamectin, and combinations thereof.
- 27. The liquid composition in accordance with claim 23 wherein said medicament is an antibody.
- 28. A method of treating a condition in a companion animal comprising orally administering the composition in accordance with Claim 20 to said animal.
- 29. The method in accordance with claim 28 wherein the condition is selected from the group consisting of flea conditions, tick conditions, heartworm conditions, bacterial conditions, viral conditions, and combinations thereof.
- 30. The method of treating a condition in accordance with claim 28 wherein said liquid composition is administered daily.
- 31. The method of treating a condition in accordance with claim 28 wherein said liquid composition is administered weekly.
- 32. The method of treating a condition in accordance with claim 28 wherein said liquid supplement composition is administered monthly.
- 33. The method of treating a condition in accordance with claim 28 wherein said liquid composition is administered with a pet food.
- 34. A kit comprising:

a container; and,

a composition housed in said container, wherein said composition comprises of a medicament, a flavorant, and water, wherein said composition is essentially free of tomato flavor and is adapted for use by a companion animal.

35. A kit in accordance with claim 34 comprising a plurality of containers.

36. A kit comprising:

a compartmentalized container; and,

two or more compositions housed in said container, wherein said compositions comprise of a medicament, a flavorant, and water, wherein said two or more compositions are essentially free of tomato flavor and are adapted for use by a companion animal.

 A kit in accordance with claim 36 comprising a plurality of compartmentalized containers.

38. A kit comprising:

a compartmentalized container;

a first compartment comprising a medicament, wherein said first composition is housed in a first compartment of said container; and,

one or more compositions housed in a compartment of said container which is not said first compartment, wherein said compositions comprise of a flavorant and water, wherein the compositions are essentially free of tomato flavor and are adapated for use by a companion animal.

39. A process for manufacturing a liquid composition comprising;

admixing a medicament, a flavorant, and water; and,

sterilizing said liquid composition at a temperature of from about 170° F to about 240° F, wherein said liquid composition is adapted for use by a companion animal.
